## 8. Admin Report:

We have been discussing the printer options and seeking a solution more will be revealed next meeting. We are still working out everything that needs to be done to change our bank account from being a personal account and two members names back to being a business account in the Sunset Coast name. There are many steps we have to do for that process. Example get a physical address for our area set up the 501(c)(3). We do need a board of trustees the requirements for nominees five years plus of continuous clean time, 10 years arrest free, and the ability to commit to a three-year term. Please bring your nominees to ASC in March. We need to update our admin budget as it is not been up-to-date in a few years. Also adding the four areas convention line and the process for how we will hold that money each year . More information will be brought to our next ASC meeting. Moving forward, the Sunset coast area secretary will highlight and read at the top of each month area minutes if our area is in fact on a spending freeze. Thank you all for allowing us to serve as your sunset coast area, Admin

## 9. RCM Report:

I'm an addict named Angie. There will not be a SFRCNA this year due to no b.o.d. & no committee members. We are currently working on getting the convention moved to every other year. Also, there are 2 motions that were voted on the floor because the region will be meeting the week before our area next month. The first motion was to have region moved to quarterly instead of bi monthly. The second motion was to have region only in person & no longer use the zoom format. Both of the motions passed at our area. So I am able to take those votes to region next month. Thank you for your time & cooperation in expediting these motions. As always thank you for letting me be of service

Angie H.

- **Submitted by Candace R:**

As a member of this fellowship, I believe we have an opportunity to collectively improve how we respect and care for the facilities that allow us to hold our meetings. Whether it's our language/behavior, vaping, bringing pets, or any other aspect of our presence, it's important that we conduct ourselves responsibly and adhere to all facility rules and regulations. Every time we step into one of these spaces, we represent the fellowship—not just for ourselves but for those who will come after us. Leading by example ensures that we maintain strong relationships with these facilities and continue to have safe spaces for recovery.

Additionally, I believe we need to take a more proactive approach to ensuring that all rents are paid in full and on time, particularly for The Last Connection. It is our collective responsibility to remain up to date on these financial obligations. Historically there has been this blur of boundaries but to be clear The Last Connection is not NA and they should be treated the same way we would treat any other facility.

By working together and holding ourselves accountable, we can uphold the principles of our fellowship and preserve these spaces for everyone who needs them.
